

NEW 2010 FPPI Products

Check Valve w/ Orifice for Pump Systems

Our popular, full-floating clapper design is now available in an orifice check. A $\frac{3}{32}$ " orifice provides adequate pressure drop in the sensing line without allowing unnecessary pump starts due to major pressure fluctuations in the $\frac{1}{2}$ " line.

Item No.	Description	Box Qty.
06-860-50	Swing Check Valve $\frac{1}{2}$ " with $\frac{3}{32}$ " Orifice	10

GrooveFit® Family Expands with 6" Outlet Manifold

In response to our distributors' successes with the growing GrooveFit® family of products we are continuing to expand the program. Now joining our many grooved check valves, hose valves and smaller outlet manifolds, our 6" x 2- $\frac{1}{2}$ " x 2- $\frac{1}{2}$ " outlet manifold is also available with a fast, grooved connection.

Item No.	Description	Box Qty.
09-107-00	6" GRV x 2- $\frac{1}{2}$ " MNPT x 2- $\frac{1}{2}$ " MNPT Straight Manifold	1
